

BUILDING THE ROAD TOGETHER

What 40 of You Said

Forty of your 120+ colleagues — about a third of the division — filled out the pre-survey. This is what they said and what May 8 does about it.

CONNECTION TO MISSION

3.48 / 5

23 of 40 staff at 4 or above. Mission connection holds — even through burnout.

INFORMED ABOUT THE ROADMAP

2.82 / 5

26 of 40 at 3 or below. Only 2 rated a 5. Awareness is the gap. May 8 closes it.

The Seven Themes From 40 honest responses · what you said and what May 8 does

01 Cross-departmental silos

≈31 of 40 raised it

Peer Health Navigators connect students across all 8 units. The Hub at every seat. MediCat platform routes referrals so students don't carry their own information.

02 Roadmap & strategic direction

≈18 of 40 raised it

Today is the visible roadmap. Plain language, where each unit fits, what's measured, what's next.

03 Decision-making transparency

≈16 of 40 raised it

Walk-in hours fourth Friday, 9–5. Booking link via Alex. Decisions explained at the source — not down a telephone line.

04 Appreciation & validation

≈14 of 40 raised it

Staff Recognition Awards today — four categories, named out loud. Sustained, not one-time.

05 Compensation, retention, equity

≈12 of 40 raised it

Salaries flow through fees + legislative funding, not AVP discretion. Dedicated compensation conversation by July 31.

06 Referral pathways (clinical)

≈8 of 40 raised it

Layer 1 Referral Coordination Program: pilot live with CCW + UCC. MediCat + referral pathway mailboxes track adherence.

07 Trust & psychological safety

≈8 of 40 raised it · new

Acknowledgment, not a fix. Sustained behavior change is the work. Open-door policy, day one. Skip-level access to Lori is sanctioned.

• All seven addressed in the deck

2 PM block · You Asked. We Answer.

Specific commitments, specific dates, specific structures.

WHAT YOU CELEBRATE · THE ONLY UNANIMOUS FINDING

31 of 40 of you named student care as our defining strength.

Across departments, roles, and frustrations — student care was the through-line. "Even through burnout. Even through disappointment." That is the foundation everything else is built on.

THE INHERITANCE

This is not a fresh start. It is a response.

Many of the conditions named in this year's survey were named publicly five years ago. The work since 2022 has been the response to a documented institutional inheritance — Keeling 2021, SHC space documented since 2013, SMHF rolled into tuition last fiscal year, and zero cuts to SH&W in the 25%/15% budget exercise.

Where the Work Hasn't Reached Yet

The outer ring · institutional policy and law · seven open gaps

Inner rings reached. Outer ring, not yet. Using the social-ecological model: this division has built at the individual, interpersonal, and organizational levels. What is still pending is institutional policy embedding — the kind of change that requires a seat at tables we have not consistently been at.

01 Suicide prevention task force

Program built. Institutional task force apparatus not yet embedded.

02 Incoming student wellness data

One marker. No disaggregation. Wellness assessment now rolling out.

03 Stop-out wellness data

No aggregate question on why students leave.

04 Stop-out process simplification

Students navigate 4–5 departments to leave.

05 Hospital-discharge MOU

No formal continuity of care from hospital to campus.

06 Communicable disease + EM

SOP built. Institutional embedding with Emergency Management pending.

07 BIT inclusion + safety net

Documented from UCC + AVP correspondence. Escalated. The most active of the seven.

Track Record

*Data-driven growth · 2022 to today***1:850****CDA caseload, 2022**

3 consultants + faculty liaison added

0**Cuts to SH&W**

25%/15% exercise · institutional vote of confidence

3.5**Years solo grants**

Christa now leads grant capacity

2**Huntsman grants written**

Active with HMHI + UHealth · tabled at funder, not at us

WHAT COMES NEXT · HOW TO STAY CONNECTED

Bidirectional accountability — with structures, not just intentions.

WALK-IN HOURS

Every fourth Friday, 9 AM to 5 PM. Just come.

BOOKING LINK + ALEX

Schedule directly. No gatekeeping.

FOCUS GROUPS

July through December. 20 in-person + 20 online, monthly.

COMPENSATION CONVERSATION

Dedicated session committed by July 31.

HUB & TEAMS CHANNEL

Standing dissemination — visit to stay current.

OPEN-DOOR POLICY

Day-one standard. Skip-level access to Lori is sanctioned.
